

CYBER & DATA SECURITY

COMPLIANCE | C SUITE

Vault America provides market-leading, industry compliant data security, protection, and availability solutions helping businesses secure, backup, recover, archive, and discover their data. Vault America simplifies securing, protecting, and managing client information.

COMPLIANCE | C SUITE OVERVIEW

SECURE | BACKUP | RECOVER | ARCHIVE | DISCOVER

EMAIL/ SOCIAL MEDIA/ SMS/ WEBSITE ARCHIVE | VAULT AMERICA CLOUD ARCHIVE

The perfect archiving solution for businesses that need to meet regulatory compliance requirements or need email securely archived and easily accessible with a service that is fast and scalable. Emails are archived using the journal mailbox ensuring all emails are archived without fail. Several features include advanced search and eDiscovery, random sampling, alert creation, user access control management and attachment managers, and advanced reporting.

Vault America Cloud Archive and eDiscovery for the Microsoft 365 Suite (Email, Contacts, Calendars, Tasks, OneDrive, SharePoint, Groups, Teams), Microsoft Exchange Server, Google Workspace Suite (Email, G Drive, Shared Drive, Contacts, Calendars, Tasks) and all SMTP/ POP/ IMAP email systems. Social Media platforms include LinkedIn, Facebook, Twitter, Instagram and more.

MICROSOFT 365 & GOOGLE SUITES/ DOCUMENT PROTECTION | VAULT AMERICA CLOUD BACKUP & RECOVERY

The ideal solution for businesses, large or small, Vault America Cloud Backup & Recovery is designed with simplicity in mind. Daily incremental backups of the Microsoft 365 Suite, Google Workspace Suite, Windows, MAC OSX, and Linux OS servers, desktops, laptops, and tablets. Customizable retentions, bare-metal recovery, and local backup without costly appliances as applicable. Backup and restore files, folders, databases, email, and the computer system machine image for enhanced disaster recovery.

24/7 CYBER THREAT, DETECT & RESPONSE | VAULT AMERICA CYBER MONITOR

With Vault America Cyber Monitor, your organization is armed with a 24/7 team of threat hunters and response experts who will: (1) Proactively hunt for and validate potential threats and incidents, (2) Use all available information to determine the scope and severity of threats, (3) Apply the appropriate business context for valid threats, (4) Initiate actions to remotely disrupt, contain, and neutralize threats, (5) Provide actionable advice for addressing the root cause of recurring incidents.

Vault America Cyber Monitor with Advanced Managed Threat Detection and Response fuses machine learning technology and expert analysis for improved threat hunting and detection, deeper investigation of alerts, and targeted actions to eliminate threats with speed and precision. Authorize our MTR team to handle containment and neutralization actions then inform you of the action(s) taken.
